Subject: RE: ORISE Student

Hi Regan,

I am finding out lots of good stuff on <https://intranet.ord.epa.gov/policy/home>

As it turns out – we can hire a student for less than one year and Michael and I will start the process in the next few months. Michelle Angel told me but here is the location of ORISE Policy <https://intranet.ord.epa.gov/extramural-services/epa-wide-policy-orise-research-participation-program-ipi-14-01>

I found on <https://intranet.ord.epa.gov/nheerl/employee-reference-ord-participation-policy> the rules for participation on other federal agency grants.

Michelle

Subject: RE: ORISE Student

Hi Michelle,

Let's talk. I know there was a PhD student who expressed interest in Jon Burkhardt's ORISE position, and since he had already selected Hyounghmin, we told her about your soon to be posted position. She was really interested in both SWMM and EPANET. I've never brought someone in for just the summer with ORISE, so I might need to check with Michelle Angel about that possibility.

Thanks,
Regan

Subject: ORISE Student

Regan,

I spoke with Michael and Sandhya about this and wanted to get with you. I put in \$75K into ORISE for UC Computer Science Doctoral Candidate Xuanyi Lin to work from 10/1/2018 to 9/30/2019. Xuanyi had had previous funding from 10/1/2017 to 9/30/2018. In August, Xuanyi discovered that he had Visa issues which UC resolved by employing him as a

TA but he needed to leave ORISE employment by 8/24/2018. I am continuing to work with him and his advisor on his dissertation topics (testing and releasing software – something that we are struggling with for SWC mobile app) but I do not need to pay him via ORISE.

I am currently advertising for a new Computer Science student and probably will be not be able to get another post graduate student. Therefore, I only need \$60K (at the most) of my ORISE money.

Michael and I are interesting in working on the scientific underpinnings for SWMM LID modules and we are collaborating with Professor Elizabeth Fassman-Beck of Stevens Institute in Hoboken, NJ. She has some LIDs instrumented and will need a student to collect data for this project next summer. We anticipate that this student will report to Michael in Edison and work as an ORISE contractor from May 1, 2019 to September 1, 2019 for \$12K. I would like to use my unused ORISE money to pay for this student.

Is this ok with you?
